

# FINE ARTS INTEREST FORM

Fine arts is a field with a strong focus on visual arts and design. In other words, it is the basis of design that gives one a foundation for a more specialized field. That new field could be anything from art history to water colors to digital arts or graphic design. Art classes typically emphasize creative and technical skills. Students talented in these areas may go on to be painters, sculptors, [photographers](#), [interior designers](#), [graphic designers](#), [musicians](#), [writers](#), and more.

First Love Christian Academy will work with parents to train their student in the type of fine arts in which they are interested in any of three ways:

- FLCA will give class credit for fine arts classes taken outside the school. This must be cleared with the administrator, and FLCA cannot be responsible for payment for these outside classes.
- If the student is not already enrolled in a class, FLCA can aid in finding an outside instructor for specific categories of fine arts.
- Certain fine arts instruction (drama, web design, others possible) will be held at the Academy, and more classes may become available through parent/guardian involvement with the Family Stewardship Program (q.v. FLCA catalog).

In order for the administration to assess student desire for future programs, please have your student indicate his/her interest in any of the following categories:
